REAL ESTATE INFO - USA

OVERVIEW

LOCATIONS

ABOUT

Market Size:

The total value of the U.S. residential real estate market was estimated to be around \$36.2 trillion in 2021.

The commercial real estate market in the USA was valued at approximately \$16 trillion in 2020.

Homeownership:

The homeownership rate in the USA was around 64.5% as of the second quarter of 2021.

In 2020, there were approximately 139 million housing units in the United States, out of which around 80% were occupied by owners or renters.

Real Estate Investment:

Real estate investment in the USA accounted for approximately 13% of the country's GDP in 2020.

The total value of investable commercial real estate in the USA was estimated to be around \$16 trillion in 2021.

Residential Property Prices:

The median sales price for existing single-family homes in the USA was \$347,500 in May 2021.

In major cities like New York City, Los Angeles, and San Francisco, the median home prices can be significantly higher.

Commercial Property Rents:

Average office rents in prime locations like New York City and San Francisco can range from \$70 to over \$100 per square foot per year.

Retail rents vary widely depending on the location and type of property, ranging from \$20 to \$400 per square foot annually.

Real Estate Agents:

As of 2021, there were over 1.4 million licensed real estate agents and brokers in the United States.
